Shipping Statistics—Nathan Habib

Import Statistics—Frank C. Bauer

This report was originally prepared to exclude all strategic and critical items as stipulated under the then existing Security Regulations concerning publication of the official United States Foreign Trade Statistics. However, due to change in Security Regulations, additional detail can now be shown for 1945 exports of strategic, critical, and military equipment items. Therefore, a supplement to this report was prepared, beginning on page 30, which shows detail for those strategic, critical, and military equipment items which were combined in the original report and which now may be shown separately.
